

Sonoma County Transportation Authority  
Regional Climate Protection Authority

## **Sonoma County Transportation Authority**

### **Request for Proposals (RFP)**

### **Countywide Active Transportation Plan for Sonoma County**

### **Written Question and Response**

SCTA received one question and provided the following response during the pre-proposal meeting on February 9, 2023.

**Question:** Can SCTA clarify the intended role of local CBO/NGOs in community outreach and the plan development process? Are proposers expected to identify CBO/NGO partners as teammates as part of the proposal - or does SCTA anticipate working with the successful proposer to identify and form these partnerships later during the contracting process or once the project is underway?

**Response:** SCTA will work with the consultant team to identify CBO/NGO partners once under contract. SCTA/RCPA have established relationships with several local CBOs/NGOs through previous engagement on transportation plans and climate initiatives.
